## Montaggio Assembly

Posizionare sul raccordo uno strato di materiale isolante (uso canapa sconsigliato) per consentire una miglior tenuta sull'attacco.

*Place over the fitting a lay of insulating material (hemp not recommended) in order to obtain a better tightness on the coupling.*

Verificare che non vi sia eccedenza di materiale aggiunto per prevenire possibili rotture per l'eccessivo serraggio.

*Please check if there isn't a surplus of above-mentioned coat, in order to prevent possible breakings caused by excessive screwing.*

Collegare il raccordo con il circuito facendo attenzione a non eccedere con il serraggio del pezzo. Verificare la filettatura del raccordo e inserire il tubo per la lunghezza massima pari alla filettatura, senza provocare deformazione del raccordo.

*Connect the fitting with the circuit. Pay attention to not exceeding in screwing. Please check fitting thread length and screw the pipe not more than this length. Be sure to avoid fitting deformation*
